Combine your Alpha Enclosure with Alpha power and you have an optionally integrated, reliable and efficient power plant.

Discover our advanced power supply cabinet, 48V power supply cabinet, and dual input 380V switching power supply, designed for industrial automation, telecom networks, and data centers.

Rated Working Voltage AC 380V/220V 50Hz Rated Working Current 800A Branch Switch Specifications 400A/250A/125A Protection Function Overload, short-circuit protection Installation Method Floor ...

Communication Low Voltage Distribution Cabinet Product Overview This AC low-voltage distribution cabinet is suitable for power plants, substations, industrial

We are a professional company engaged in electrical automation, committed to providing customers with integrated power distribution and automation solutions for high and low voltage electrical control ...

A power efficient design is required that supplies both the higher voltage analog circuits and multiple tightly regulated low-voltage supplies for the high-speed digital communications ASICs and FPGAs.

This heavy-duty enclosure securely houses a Stand By Power Supply and three (3) batteries along with equipment and cable required for fiber optic conversion and/or distribution.

They feature power supply, distribution, and protection equipment as well as radio systems and passive or active cooling. Contact us today to learn about all the options and to find a solution that is right for ...

Our base station cabinets can directly power nearly any communication equipment they house. The design of our racks and cabinets allow for high integration with different backup time and easy ...
