The Mini C& I ESS has numerous applications such as Microgrid, backup, off-grid peak shaving, time of use, self-supply, demand response, and Virtual Power Plant (VPP).

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

African Technical Support Our certified specialists provide support for outdoor communication cabinets, power equipment enclosures, and battery storage cabinets across Africa.
