An uninterruptible power supply (UPS) helps prevent sudden shutdowns, data loss, and hardware damage by providing backup power when your main electricity fails.

An uninterruptible power supply (UPS) typically costs between \$50 and \$10,000+, depending on capacity, type (standby, line-interactive, or online), and features.

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out.
