How do I find all Austrian public tenders?

Get all tenders of the Austrian public sector at one place, regardless where they were originally published. With various filters and sorting mechanisms as well as an integrated full-text search you will find your tenders quickly. The USP indexes all available sources of tenders each and every day. Therefore, all the latest tenders are available.

Is 5G available in Austria?

5G is widely available in all provincial capitals, and according to the Austrian Broadband Atlas, more than half of all households were covered as of January 2021. Reports predict coverage of up to 90% by the end of 2025.

2. Are telecoms companies monetising 5G investments - or are the services provided to consumers at similar prices to 4G?

What are 5G frequency auctions?

There have been two significant 5G frequency auctions. To encourage 5G deployment in rural areas, discounts were offered to leading network operators A1 Telekom, Hutchison Drei and Magenta Telekom, as well as smaller, regional companies. 5G spectrum was auctioned at significantly cheaper prices than LTE (4G) frequencies.

Is 5G already used in industry?

It is difficult to determine to what degree 5G is already used in industry due to a lack of government publications. In 2015, a semi-governmental institution, "Industry 4.0 Austria", was set up, while non-governmental reports cover industrial 5G uses such as intelligent factories and the Internet of Things.

Government tender notices, project information, procurement news, procurement plans, contract awards - Austria. View details and documents of tenders RFQs and government contracts.

The 5G-BEAM project utilises state-of-the-art 5G technology, edge computing and hybrid communication solutions to provide vehicle-to-vehicle (V2V) and vehicle-to-network (V2N) functions.

Explore an in-depth analysis of 5G regulation and law in Austria, covering deployment, frequency auctions, and future 6G plans. Tailored for professionals.
