What are solar panel backpacks?

Never fear, solar panel backpacks are here! These revolutionary backpacks are equipped with solar panels that allow you to charge your devices and stay connected no matter where you are.

Do solar backpacks have power banks?

Some solar backpacks come with power banks included, meaning that the solar energy can be stored in the power bank and then used whenever you need to charge your devices. Other solar backpacks force you to charge your devices with the solar energy immediately -- you can't store it for later.

What are the best backpacking solar panels?

The best backpacking solar panels are lightweight, foldable, and compact, fitting easily into your pack. Whether you're a weekend hiker or on a long expedition, these portable designs won't weigh you down and are often part of a great solar camper kit.
