-----

BAK Battery unveils the 688Ah large-capacity energy storage cell, offering 6.9MWh system capacity, reducing system costs by 8%, and enhancing safety and durability.

Utilizing BAK energy storage systems offers a myriad of advantages that extend beyond mere energy storage capabilities. One significant benefit is the enhancement of energy resilience, ...

Welcome to the channel of BAK Battery. BAK Battery was founded in 2001 in Shenzhen, China, and has developed into an international leading new...

BAK Battery introduces the ENDURO S+ liquid-cooled energy storage system for commercial & industrial use, featuring high safety, 261kWh capacity, and long cycle life.

BAK's energy storage batteries feature modular design and come equipped with an intelligent battery management system (BMS). They offer advantages such as compact size, lightweight, extended ...

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, ...

Discover BAK's ENDURO S+ liquid-cooled all-in-one energy storage system--high efficiency, superior safety, and intelligent control for industrial and commercial applications.

Cylindrical Battery High Capacity High C-rate Long Cycle Life High Safety Super Temperature Adaptability
