Comprised of Tier one A+ LFP Cell with over 6000 cycles and a service life of over 10 years. Optional PV charging module, of-grid switching module, inverter, STS and other accessories are available for microgrid ...

A dual-purpose outdoor ESS that combines solar storage with integrated EV charging -- reducing costs, maximizing clean energy use, and powering vehicles day and night.

5-CCT selectable, back-lit LED retrofit fixture. Installs on standard junction boxes. Dimmable models available for 0-10V or TRIAC dimming systems with optional microwave sensor and/or integrated emergency battery ...

The Smart ESS is a fully integrated plug and play energy storage solution that are ready for connection to medium-or high-voltage grids and offers proven hardware to meet energy storage and grid support challenges.

Integrated PV and storage system with super wide PV input voltage; Small footprint and IP54 protecting grade for outdoor installation. Safe & Reliable High-performance battery cell, meet IEC/UL/GB standard; Advanced ...

All-in-one design and modular installation with a single cabinet covering an area of just 1.68m²; Applicable to multiple industrial scenarios and easy to connect to the grid.

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

The PV+ESS+Charger Solution integrates the PV system and energy storage system (ESS) with a charger to charge vehicles, which also helps save electricity costs through peak and off-peak electricity price differences.
