Leading manufacturer of high-performance, long life cycle lithium-ion battery packs. Advanced renewable energy storage solutions for alarm & security systems, access control, UPS & backup ...

We design batteries customized to your needs. From drones, to solar, to electric cars, to forklifts. We do it all. Drop-in replacements with better chemistry, safer operation and longer life. With low Total Cost ...

Brazzaville, the capital of the Republic of Congo, is witnessing a surge in demand for battery energy storage systems (BESS). With increasing investments in renewable energy and grid modernization, ...

We are the industry leader in 48V battery repair and we manufacture small cell, high-performance lithium-ion battery packs. We deliver advanced energy storage solutions across a wide range of ...

China, as one of the leaders in the world's new energy industry, has gathered many companies that are deeply engaged in the field of lithium-ion battery energy storage and have advanced technology.

Next-generation thermal management systems maintain optimal operating temperatures with 40% less energy consumption, extending battery lifespan to 15+ years. Standardized plug-and-play designs ...

With an annual capacity of 60,000 battery modules, the new automated lithium battery production line integrates intelligent loading, high-speed laser welding technology, robotic stacking, and precision ...

Our global locations and partnerships enable us to deliver energy storage solutions in your part of the world. C& D locations can be found in North America, Asia, Oceania, and Europe. Explore our ...
