Can two AC units be used together in an outdoor battery cabinet

Charging over 12V is inefficient as you will only get about 66% of the available battery to use on the AC180 which is 768Wh or around not quite 3 full charges of the EB3A.

Running two portable air conditioners simultaneously on the same circuit is generally not recommended. In Europe and the UK, it is possible to run two portable air conditioners on a 15A circuit.
