Is custom lithium a good brand?

Custom Lithium team is just simply amazing! Their Customer service is probably the best I've come across in years, and I do deal with a lot of suppliers being a 12V business owner. Prompt response even at late hours and the quality of their products is just the best in OZ. Built tough to last too! Those batteries never skip a beat.

Why should I buy a custom lithium battery?

By purchasing your battery from a certified Australian Made company like Custom Lithium, you're not only investing in a premium product but also in your local economy. Which Battery is Right For Me? We believe in giving back to our community; that's why we partner with local charities, sporting teams and organisations to bring change.

How to charge a slim lithium battery?

If you opt for a charger from a third party or plan to use an existing charger, make sure it is suitable for lithium batteries. It should support a bulk charge setting of 14.2 ~ 14.6 volts and an absorption/float charge of 13.4 ~ 13.6 volts to ensure efficient and safe charging of your Slim Lithium Battery.

What Charger do I need for a slim lithium battery?

Our Slim Lithium Batteries come in just 2 sizes, 100Ah & 200Ah, and we recommend a Victron DC-DC 30A or REDARC Core 40A charger. If you opt for a charger from a third party or plan to use an existing charger, make sure it is suitable for lithium batteries.

Wholesale 12V 100Ah LiFePO4 lithium battery packs with LCD display from Himax Electronics. Ideal for UPS, emergency lighting, solar power systems, EVs, and portable devices. Customizable, long cycle ...
