We offer advanced solar battery storage, energy storage containers and complete solar power solutions.

The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is rapidly deployable -- operating within hours to support power needs across diverse ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...

We design and sell foldable and unfoldable solar trailers, quiet, with no maintenance, non polluting, adjustable & orientable and 20-feet maritim containers including vertical aluminium sliding and ...

Explore the detailed cost comparison of container energy storage systems in the EU with Maxbo. Discover how advanced, tailored solutions can reduce energy costs and maximize ROI.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

After an easy and efficient installation, the system can be used almost anywhere. Perfect for temporary use in previously unutilized areas, Sun2Fold enables a sustainable energy supply exactly where the ...

Used for a large number of containers -- allows modular linking of multiple containers equipped with the Solar Container system using a single inverter up to 60 kW.

Premium lithium-ion battery cells with storage capacities from 30 kWh up to 480 kWh -- ensuring reliable, continuous power supply. Reliable backup generators with rated outputs between 7.6 kVA ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...
