Who should pay Eswatini electricity debt?

Likewise, any debt should be paid by the customer. The Eswatini Electricity Company (EEC) is engaged in the business of generation, transmission and distribution of electricity in the Kingdom of eSwatini. Our technical expertise in the power industry is well recognised energy player especially in the Kingdom of Eswatini and SADC region.

What is the electricity access rate in Eswatini?

The overall electricity access rate in Eswatini is estimated by Power Africa at 83 percent in rural areas and 95 percent in urban areas. GKoE has taken actions to encourage energy battery storage, including offering an SEZ to a company seeking to build a vanadium-flow battery farm funded in part by the Export-Import Bank of the United States.

Why did Eswatini change his energy policy?

The changes are driven by Eswatini's desire to improve energy security, access to reliable, adequate, and affordable electricity, and the mitigation of potential detrimental impacts on the environment because of the growing energy demand.

Where does Eswatini electricity come from?

The rest of the electricity required is imported from South Africa (Eskom) and occasionally Mozambique (EDM), particularly when issues emerge relating to Eskom's supply. In 2022 the Eswatini Government has brought online a 10MW solar plant and will be awarding a solar generation license for the 50 MW to an IPP by late 2023.
