Today, the U.S. Department of Energy's (DOE) Office of Clean Energy Demonstrations (OCED) issued a Notice of Intent (NOI) for up to \$100 million to fund pilot-scale energy storage ...

The addition of project-generated traffic during project operation is not anticipated to cause a substantial increase in traffic volumes within the transportation system affecting the ...

Short duration energy storage is already supporting the grid, but continued deployment of variable renewable energy may push the requirement beyond the energy storage systems that exist ...

Chautauqua County - The City of Dunkirk Planning Board, as lead agency, has determined that the proposed GCI Lighthouse Energy Storage LLC Battery Storage System Project ...

The proposed project would provide a service to the regional electric grid by receiving energy (charging) from the SCE electric transmission system, storing energy on site, and then later delivering energy ...

The proposed BESS would include associated ancillary facilities consisting of an on-site project substation and control room, power conversion stations (with inverters and transformers), ...

The US Department of Energy's (DOE) Office of Clean Energy Demonstrations (OCED) has issued a Notice of Intent (NOI) to fund pilot-scale energy storage demonstration projects, ...

NOTE: This is the last notice you will receive by mail. If you wish to continue to receive notices for this project, please sign up for the Goldeneye Battery Energy Storage System (BESS) ...

This funding will focus on non-lithium technologies, long-duration (10+ hour discharge) systems, and stationary storage applications. In September 2024, DOE announced up to \$100 million in funding to ...

Let's face it - energy storage projects aren't exactly dinner table conversation for most folks. But if you're

Energy Storage System Project Notice

here, you're probably part of the 20% who actually care about grid-scale batteries ...
