Where can I find a technical decision on energy storage?

1 Department for Energy Security and Net Zero and Ofgem, 'Long Duration Electricity Storage: Technical Decision Document', available here. 2 Department for Energy Security and Net Zero, Ofgem and Michael Shanks MP, 'New scheme to attract investment in renewable energy storage', available here.

Where is field energising?

This latest milestone follows the energisation of Field's 50MW/100MWh Auchteraw battery storage site in Scotland, its largest site to date. Field has also begun construction at Holmston and Drum Farm and secured planning permission in Yaxley, Suffolk, further expanding its pipeline.

Where is field building a pipeline?

Field has also begun construction at Holmston and Drum Farm and secured planning permission in Yaxley, Suffolk, further expanding its pipeline. Amit Gudka, CEO of Field, said: "Securing eligibility for our long-duration projects marks another step forward in Field's mission to build the flexible, low-carbon infrastructure Britain needs.

What happens if a field project passes Stage 1?

Passing Stage 1 confirms Field's Fyrish, Long Stratton, Netherton, New Deer and Rigifa projects meet Ofgem's eligibility criteria. The projects will now move forward to Stage 2 for further assessment, determining support through Ofgem's cap-and-floor revenue model.

Download Citation | On Jul 8, 2022, Tianliang Yao and others published Planning Scheme Design for Multi-time Scale Energy Storage at the City Level | Find, read and cite all the research you need ...

This study proposes an optimization strategy for energy storage planning to address the challenges of coordinating photovoltaic storage clusters. The strategy aims to improve system ...

To meet the widespread demand for energy storage regulation in various links, a reasonable and economical planning scheme should be formulated. This article proposes an energy ...

With the increasing expansion of renewables, energy storage plays a more significant role in balancing the contradiction between energy supply and demand over both short and long time ...

Energy storage field planning scheme

Field has also begun construction at Holmston and Drum Farm and secured planning permission in Yaxley, Suffolk, further expanding its pipeline. Amit Gudka, CEO of Field, said: ...

To address the challenges posed to the secure and reliable operation of the power grid under the "dual-carbon" goals, an optimal planning and investment return analysis method for grid ...

The integration of a high proportion of renewable energy sources presents significant challenges to power system operation. To address this issue, this paper proposes a scalable ...

On March 11, 2025, the Department of Energy Security and Net Zero and Ofgem published the much anticipated Technical Decision Document (TDD) to confirm details of the cap and floor scheme for ...

A well-crafted energy storage field planning map isn't just nice-to-have; it's the secret sauce turning renewable energy dreams into 24/7 reality. With global energy storage capacity ...

To reduce the waste of renewable energy and increase the use of renewable energy, this paper proposes a provincial-city-county spatial scale energy storage configuration model based on ...
