Leading provider of large-scale photovoltaic power plants, custom folding solar containers, and complete energy storage systems across Southern Africa and international markets.

We are a company that specializes in providing solar energy to businesses and individuals throughout Ethiopia, and we offer a high-quality service to those who are interested.

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and ...

Below are 10kW-500kW wind power plant, solar power plant, and hybrid solar wind system prices for your option. 1MWh - 3MWh solar energy storage system is widely used in house communities, ...

The system's core comprises folded solar panels ingeniously housed within a container frame that aligns with the standard dimensions of a 20-foot "high-cube" container, as per ISO 668 with CSC certification.

Off-grid photovoltaic technology is becoming increasingly popular in Ethiopia, including residential photovoltaic systems and microgrids, which offer an affordable and environmentally safe method of ...

Here, we provide comprehensive information about large-scale photovoltaic solutions including utility-scale power plants, custom folding solar containers, high-capacity inverters, and advanced energy ...

Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy capacity range of 1.0 - 2.9 MWh per container to meet all levels of energy storage demands.

Discover renewable energy innovation with our 45ft Solar Energy Container, a mobile powerhouse designed to bring sustainable power wherever it's needed. With its transportable convenience and ...

Ethiopia Solar Container Ultra-Large Capacity Quotation

We sell a container including fold-up aluminium solar wings, each made from 8 solar panels, providing 2.4kW power and wired to the pre-fitted technical room inside the container.
