HybridPACK(TM) Drive offers a compact and scalable power solution for hybrid and electric vehicle traction, ranging from 100 kW to 300 kW, within 750 V and 1200 V classes.

Perfect for both indoor and outdoor use, Batt Pack Energy is incredibly user-friendly, providing an impressive peak power output of up to 6000W. Designed to withstand any conditions, this is far from ...

The Batt Pack Spark replaces a 25kW diesel generator, providing continuous and high surge power for tough environments, with hybrid options to reduce fuel and maintenance costs.

Explore Hybrid Power Solutions" eco-friendly, efficient portable power systems. Leading innovation in solar batteries and generators for all industries.

Hybrid Power Pack is designed to meet the requirements and specifications of any task, all power type 50/60 Hz and with a range from 110 to 690 Volts as well as all different environments including ...

Hybrid Power Solutions produces portable lithium-ion battery systems and customized energy solutions for a variety of industrial markets, including the mining, construction, railway, marine and military ...

Explore our range of robust, reliable power solutions designed for industrial applications. Whether you need portable power for remote job sites or backup power for critical operations, our products deliver ...

Designed to reduce emissions, HybridPack utilizes solar and battery power to decrease reliance on diesel, reducing your site"s carbon footprint and helping you meet environmental targets with a more ...

Advanced hybrid and fuel-free portable power solutions that challenge the status quo and reduce operational costs. Experience powerful, sustainable and reliable energy on demand.

Individual hybrid drive with a modular design. It takes revolutionary thinking to develop a smart rail drive

Hybrid power pack

system like the Hybrid PowerPack. Find out what makes mtu different, and why our Hybrid ...
