Homeowners can submit consumer complaints to the TDLR against both residential solar retailers for contracts starting on or after September 1, 2025, and electrical contractors for work they performed ...

Many states have enacted "solar rights laws" that prevent homeowners associations (HOAs) from outright banning solar panel installations. These laws protect homeowners' right to ...

Arizona, California, Florida, Massachusetts, and New York (among other states) have all enacted "solar rights" laws that generally prohibit condominiums, common interest communities, and HOAs from ...

Maine. Established in 2009, Maine's Solar Rights give locals the "right to install and use solar energy devices" with prohibition only possible in the event of reasonable restrictions such as ...

USA TODAY's analysis found 15% of counties nationwide now have some impediment to new utility-scale wind and solar energy. Gauging those impediments required researching a variety ...

As solar energy adoption accelerates globally, photovoltaic (PV) glass has become a hot topic in architecture and urban planning. But here's the burning question: Does installing PV glass count as ...

Paradoxically, the states most likely to do this are some that would greatly benefit from solar power, like Oklahoma, Kansas, and Nebraska. This article will list all the states with the largest ...

So, are solar panels illegal? There is no definitive answer to this question since solar panel laws vary from state to state. However, in general, solar panels are not illegal and most states have ...

Navigate solar panel disputes with HOAs and neighbors. FindLaw explains your legal rights, state laws, and solutions for resolving conflicts.

Illegal construction of photovoltaic solar panels

Let's cut through the confusion: Installing photovoltaic panels isn't inherently illegal, but it's like baking a soufflé - get one step wrong and the whole thing collapses.
