"There," "their," and "they're" sound similar, but they have very different meanings. It is important to understand the difference between these words because using the wrong one is considered a basic ...

There is sometimes used by way of exclamation, calling attention to something, especially to something distant; such as in the phrases There, there!, See there! and Look there!

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed quickly ...

A telecommunications company in Central Asia built a communication base station in a desert region far from the power grid. Due to harsh climate conditions and the absence of on-site ...

Roof Installations: Mounting solar panels on the roof of the shipping container provides a compact and efficient solution, utilizing the available space effectively.

They connect multiple solar panels in a "string" to a central inverter. String inverters are a good option for systems with minimal shading and consistent sunlight.

In English there, their, and they're are all pronounced the same way. Each means something different, but they are often confused in writing, even by native speakers of English.

When do we use "there"? While "their" is a seemingly simple word, with two distinct uses and a clear meaning, "there" is a little bit more complex, in regard to the contexts where it may appear. To be ...
