SolarCity, now owned by Tesla, Inc., is a leading solar energy services company founded in 2006 and headquartered in San Mateo, CA. The company specializes in designing, installing, and ...

Tesla reported record energy storage deployments and business segment profits in Q3 2025, just ahead of a shareholder vote on CEO Elon Musk's historic remuneration package.

In a recent interview, Elon Musk says that solar is the only logical energy source to build out, and it logically dwarfs all other sources.

The project, which marks Tesla's first large-scale energy storage plant in mainland China, is poised to play a key role in stabilizing the country's electrical grid.

Shares of Chinese solar panel makers surged after a team of staff sent by Elon Musk had reportedly visited several photovoltaic suppliers in China.

Tesla CEO Elon Musk has floated the idea of building a new Tesla Solar Gigafactory in America. As artificial intelligence becomes more prominent and energy demands soar, Musk is ...

Tesla Energy 2025: Solar Roof V4, Powerwall 3, and Megapack installations worldwide

Tesla is hiring to support founder Elon Musk's recently announced plan to become the biggest U.S. manufacturer of solar energy components, according to online posts by senior ...

Tesla Energy Operations, Inc. is the sustainable energy division of Tesla, Inc. that develops, manufactures, sells and installs photovoltaic solar energy generation systems, battery energy storage products and other related products and services to residential, commercial and industrial customers. The division was founded on April 30, 2015, when Tesla CEO Elon Musk announced ...

Musk Photovoltaic Energy Storage Company

"The solar opportunity is underestimated," Musk said, adding that Tesla sees solar and storage--on Earth and eventually in space--as core pillars of future energy abundance. Tesla is no ...
