Find Mutual Aid Networks and other community self-support projects near you. Join these important efforts, offer resources, or submit needs requests.

Report from Mutual Aid Disaster Relief about ongoing mutual aid efforts to build autonomous infrastructure in Puerto Rico. Borik (Puerto Rico) is no stranger to sieges.

One innovative solution that has emerged in recent years is the integration of solar energy into humanitarian aid efforts. In this blog, we explore how solar energy is bringing light to those in ...

The growing coalition of renewable energy companies and non-profits across Puerto Rico is collecting unused, turn-key solar and battery equipment donations for rapid deployment to Jamaica.

This paper constructs the primary topology and communication control architecture of a multi-distribution area flexible mutual aid system, fully considering the power constraints of the grid ...

Community shared solar programs enable members of a neighborhood or community to pool resources and share the benefits of a single solar installation. Everyone can participate--even renters, ...

It is with that aim that Mutual Aid Disaster Relief stands in solidarity with the community of el barrio Mariana, Proyecto de Apoyo Mutuo, and other mutual aid movement allies to bring sustainable, ...

We are sending small-scale photovoltaic solar equipment and water purification gear down to Puerto Rico with one of our teams on Monday. To help us do...

It's an off-grid solar package that scales up easily and can power the mutual aid center for years to come. We combined the installation with a hands on entry-level solar training in Spanish ...

Report from Mutual Aid Disaster Relief about ongoing mutual aid ...

## Mutual aid photovoltaic panels

By funding programs that provide rooftop solar panels, batteries to store solar energy, and community solar farms, the EPA expects to help more than 900,000 low-income households reduce...
