Since no longer exempt, bifacial solar cells would be subject to Sec 201.

Is a bifacial exemption a win for the solar industry? The Solar Energy Industries Association (SEIA) deemed it a win for the industry as it kept costs for imported modules low. Originally granted in June ...

There is no domestic production of this kind of solar panel, which has the ability to absorb light on both sides. However, since these were the only imported panels that weren't subject ...

In his announcement, the President included an exemption for bifacial solar panels. This decision comes after the ITC recommended in November 2021 to extend the safeguard tariffs for an additional four ...

The Biden Administration reinstated Section 201 tariffs on bifacial solar modules in 2024, reversing a 2022 exemption. This increases costs for utility-scale projects using bifacial panels by 1 ...

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by ...

The judgement, published today, means that as of now bifacial solar modules can be imported to the US free of punitive tariffs under the Trump administration's Section 201 trade regime.

WASHINGTON, D.C. -- In a win for the solar industry, the U.S. Court of International Trade (CIT) re-instated the exclusion of bifacial solar modules from the Section 201 tariffs. Originally ...

In a significant policy shift, the Biden administration has reinstated tariffs on imported bifacial solar panels, reversing a two-year exemption. This move, driven by domestic manufacturers" ...

Importers who signed contracts by May 16, 2024, may import bifacial solar panels without Section 201 duties from June 26, 2024, to September 23, 2024, provided the contract terms have not ...
