What challenges do energy storage companies face?

Ongoing supply chain issues, changing global market dynamics, and the rising demand for energy storage solutions are leading to challenges for buyers of energy storage system (ESS) equipment. To navigate this complex landscape, companies need a reliable tool to predict future cost and pricing trends.

Will PNTR cessation affect Batteries imported from China?

Between PNTR cessation, Section 232, Section 301, and now AD/CVD, batteries imported from China are currently at risk for exposure to nearly 150% tariff levies should all four of these proposals come to pass. It is unlikely that all of these tariffs will be levied simultaneously.

How will China's PNTR tariff affect battery and battery materials prices?

active material from China marks the fourth such proposed tariff that could affect imported battery and battery materials prices. Between PNTR cessation, Section 232, Section 301, and now AD/CVD, batteries imported from China are currently at risk for exposure to nearly 150% tariff levies should all four of these proposals come to pass.
