A Turning Point For Nauru Fewer Outages, Lower Generation Costs Reforms to Strengthen Power Sector With the generators now up and running, the power grid will become significantly more reliable, giving consumers access to a more affordable supply of electricity. Widespread blackouts will be a thing of the past, and Nauruans will no longer need to rely on backup generators. Power outages are expected to drop to less than two days a year by the end of 2026. See more on [adb](#) Missing: cabinet room Must include: cabinet room.
