The Solarland range of Class 1 Division 2 solar panels offer outstanding performance and reliability in the most demanding of applications. For over a decade, Solarland has been designing and manufacturing the highest ...

SolarSet builds Class 1 Division 2 solar power systems specifically for hazardous locations. These systems are rugged, easy to deploy, and built for the realities of fieldwork.

These safe, reliable, durable, and rugged systems are designed to require minimal maintenance and long life. Twenty-year design life (with battery replacements approximately every five to seven years). C1D2 certified ...

These systems are the finest complete stand-alone solar electric systems designed for industrial, oil & gas, mining, and telecom applications that can be approved for Class I, Div. 2 hazardous locations.

The HAL-SPNL-150 150-watt Explosion Proof Solar Panel from Larson Electronics is a high output module designed for solar-powered systems in Class I, Div 2 hazardous locations. The 12V unit contains 36 ...

This is a simple catalog price listing of our Class I Div 2 12V and 24V pole-mounted battery enclosure solar panel systems. Contact us for reviews.

These safe, reliable, durable, and rugged systems are designed to require minimal maintenance and long life. Twenty-year design life (with battery replacements approximately every five to seven years). C1D2 certified ...

Class 1 Division 2 (C1D2) solar panels are designed to be used safely in environments where flammable gases, vapors, or liquids may occasionally be present in sufficient quantities to produce an explosion or fire.

10J, Ameresco Solar 10 Watt Solar Panel Part Number: 10J Manufacturer: Ameresco Solar Voltage: 12

Photovoltaic Class I Panel

Length: 16.73 IN Width: 10.74 IN Thickness: 1.97 IN PDF-Datasheet: Ameresco-Solar-10J-V-06-25-2024
Our Class 1 ...

Solar panels rated for Class 1, Division 2 (C1D2) environments are engineered to operate safely in areas where flammable gases or vapors are not normally present, but may become hazardous under abnormal conditions.
