A Solarfox® Public Display shows live data of your solar production and energy consumption in your entry lobby or shop floor. Several rotating pages with customized images, text and your promotions bring your data to life.

Siebert Solar digital displays make the solar PV system investment and its performance instantly visible - in the foyer, the entrance hall or even outdoors, providing key information about the installed system at a glance.

Power-Display is dedicated to monitor renewable energies from photovoltaic, solar thermal, hydroelectric, geothermal plants. Power-Display can be installed inside a building or outdoors.

Discover the EG4 FlexBOSS Screen Kit for real-time solar system monitoring and control, available at Signature Solar. Compatible with the FlexBOSS21, this easy-to-install screen ...

Discover the EG4 FlexBOSS Screen Kit for real-time solar system monitoring and control, available at Signature Solar. Compatible with the FlexBOSS21, this easy-to-install screen enhances functionality and user ...

A photovoltaic power generation system display board acts as the control center, providing instant insights into energy production, system health, and consumption patterns.

A photovoltaic display panel shows important key figures of a solar system in real time - such as electricity yield, CO<sub>2</sub> savings or environmental performance - in a publicly visible way.

Monitor your solar PV system like a pro with an advanced display. Stay updated on energy production, performance, and overall system health.

Linsn Solar LED Display, also known as photovoltaic energy-saving display, is a wiring-free integrated device composed of clean photovoltaic solar panels and lithium-ion battery energy storage, combined with intelligent

## Photovoltaic exhibition board

Siebert digital displays are suitable for any photovoltaic system and can also be connected subsequently to existing systems. The following connections are available as standard:

Solarfox Solar display board for indoor and outdoor use. Energy data visualisation of current solar power and CO2 savings as well as an innovative bulletin board for your own content.
