What is Poland's energy storage subsidy program?

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to support the deployment of more than 5 GWh of energy storage in the country. The new regulation was published in the Journal of Laws of the Republic of Poland on March 7.

What is Poland's new energy storage scheme?

The scheme has been brewing since 2024, with the final regulation published in the Journal of Laws of the Republic of Poland in March this year. It received European Commission approval, which authorised state aid of EUR1.2 billion in state aid to support at least 5.4 GWh of new electricity storage facilities.

What is Poland doing about energy storage?

Poland has just rolled out one of Europe's most ambitious energy storage programmes- a EUR980 million initiative that's set to transform the country's grid infrastructure. The Polish Ministry of Climate and Environment has finalised this landmark subsidy scheme, targeting over 5 GWh of new storage capacity by 2028.

How much PLN will be distributed under the energy subsidy scheme?

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028.
