How to choose a portable power bank?

When choosing a portable power bank, capacity is one of the most important factors. It determines how many times a device can be charged. Capacities typically range from 5,000mAh to 30,000mAh or more. Output power affects charging speed.

Which power bank should I buy?

The Nimble Champ is our top recommendation for most folks, but we have all sorts of alternatives here. Read our Best MagSafe Power Banks guide for magnetic wireless chargers, and our Best Portable Power Stations guide for more power. Updated November 2025: We've added a power bank from EcoFlow, and an honorable mention for a new Anker power bank.

What is the best power bank for multiple devices?

This power bank stands out for its large capacity and built-in cables, making it a practical choice for users with multiple devices. The SABANI N6 offers a 35,000mAh capacity packed into a size comparable to a smartphone, making it unusually portable for its power.

Is myCharge a good portable power bank?

The charging cord is shorter than other models. This portable power bank from myCharge earned the top slot in our test for its portability, battery life, and ability to accommodate both iPhone and Android models. Thanks to the USB port, type C, and lightning cable adapters included, you don't have to bring your own cables.

These are the best small power banks for travel and commuting in 2024, according to our product experts, including picks from Anker and Belkin.
