Switching from propane to electric forklifts powered by lithium-ion, TPPL, or lead-acid batteries is a game-changer. Our Electric Forklift Conversion Program has helped businesses upgrade over ...

As Iceland pushes toward carbon neutrality, electric forklifts powered by lithium battery packs are transforming material handling across fishing ports, geothermal plants, and logistics centers.

The Reykjavik Capital Area is the country's largest and most populated city and currently home to 234.910 people (2020), that's two-thirds of the entire Icelandic population!

Despite the capital area's relatively petite size, Reykjavik is a city which is recognized for its devotion to the arts and culture. Visitors will find themselves with a plethora of choices, including more than 60 ...

Grandi District Leirandi cave & Reykjavik Botanical Garden Sky Lagoon Mount Hfarsfell House

Forklift batteries, especially robust lithium variants, repurpose high-capacity storage for solar systems, storing 5-10 kWh per pack to power off-grid needs reliably.

Thanks to the high capacity, high-power lithium battery pack, Frey battery-driven lift trucks operate more efficiently, loading heavier and running longer than their lead-acid counterpart.

Over the past few decades an extensive film industry possessing a full range of know-how and experience has been built in Reykjavik. A thriving and ever-growing film and commercial scene has ...

Finally, don't forget Perlan, one of Reykjavik's most iconic landmarks. Perlan combines innovation and nature under its glass dome, offering stunning city views.
