-----

In the vast Saudi desert, about a hundred kilometers south of Jeddah, the vast Al Shuaibah 2 solar power plant rises from the sand. The rows of panels shine in the bright sun, forming ...

Al Shuaibah 2 is Saudi Arabia's largest solar farm, with a capacity of more than 2 gigawatts, enough to power around 350,000 homes. But it won't keep its crown for long. Even larger...

The Background of Our Story As global energy trends move towards renewables, even oil-reliant nations such as Saudi Arabia have made strides towards a sustainable future. As a key initiative under Saudi ...

A new and significant milestone has been achieved for the 119-megawatt (MW) Solar PV Plant in Wadi Dawasir, with the confirmation of the Commercial Operations Date for the project.

Desert Technologies plans to establish a solar cell and module assembly plant in Saudi Arabia with a significant annual capacity of 5GW, split into 3GW for solar cells and 2GW for PV ...

Nestled in Al Madinah province, the plant is slated for grid connection by 2025, promising to power with clean electricity over 190,000 homes and offset more than 1.8 million tons of CO<sub>2</sub> each year.

Saudi Arabia will invest \$2 billion to build two solar farms with total capacity of 2,000 MW in Turkey, the Turkish energy minister said on Tuesday.

The Kingdom's solar power surge is not only vital for local energy security but also plays a significant role in combating climate change and promoting sustainable development in the region.

Inaugurated in 2021, the Sakaka Solar Power Plant in Al Jouf is the first of its kind under the Custodian of the Two Holy Mosques Renewable Energy Initiative, led by the Ministry of Energy.

This dashboard shows operational, under development and tendered solar and wind energy projects in Saudi
