Are solar panels a scam?

Here's how to steer clear of the scams: Do some research. Avoid solar companies that say a government program will cover the whole cost of solar panels -- or say they're from (or affiliated with) the government. These are lies. If you're looking at solar energy for your home, get quotes from reputable providers with a valid license.

How do I avoid getting scammed with solar panels?

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a salesperson sounds too good to be true, it probably is.

Are 'free Solar' offers a scam?

One Texas resident, misled by a so-called "free solar" offer, found herself stuck with a \$56,000 loan for panels that were never installed. According to the Federal Trade Commission (FTC), Americans lost billions to scam calls in 2023, with energy-related scams ranking among the most common. Scammers are experts in manipulation:
