Jia Mao provides innovative photovoltaic floor tiles. Our durable, walkable solar panels are perfect for public spaces, patios, and driveways, turning any surface into a power source.

Photovoltaic floor tiles combine solar energy generation with durable paving materials, offering sustainable energy solutions for urban spaces, public areas, and smart cities, while reducing carbon ...

Our Solar Walkway is a smart data floor designed to promote renewable energy in the public domain. The floor is installed in urban environments to make the production of renewable energy visible.

Each model features specific power outputs, efficiency rates, dimensions, and temperature coefficients, suitable for different installation needs and operating conditions, ensuring versatility in solar energy applications.

Customize your photovoltaic glass with Onyx Solar. Choose from a wide range of colors, sizes, transparency levels, and shapes to meet your aesthetic and energy needs. Tailor every detail to create a unique and ...

Solar Innova photovoltaic floor tiles can be installed on flat roofs, replacing conventional materials. This type of solutions are perfect to be used in urban environments maintaining the aesthetic and respecting the ...

Photovoltaic Floor Tiles transform outdoor surfaces, adding functionality to spaces such as balconies, terraces, and flat roofs. This solution makes it possible to generate clean energy from areas that would otherwise ...

Unlike traditional PV panels that occupy valuable rooftop space, our PV floor offer a dual purpose, allowing building owners to harness solar energy without sacrificing amenity space. These anti-slip, "walkable" PV ...

PVFloor provides both energy saving and an aesthetic solution with its innovative energy-generating solar panels used as floor covering. With its durable and efficient structure, PVFloor can be used in walkways, parks, ...

Solar photovoltaic floor tiles

Our PV floor systems are not only eco-friendly but also aesthetically pleasing, available in various colors and designs to complement any architectural style.
