Make your own high-quality liquid nitrogen, anywhere, anytime! Labtech offers a complete line of Liquid Nitrogen Generators that allow you to produce from 8 up to 80 liters per day. Our Generators were designed and ...

Simply connect the power and press start for the machine to automatically produce liquid nitrogen when needed.

By connecting to a power source, cooling water (or closed loop chiller), and compressed air (or using integrated compressors), liquid nitrogen generators provide a reliable, on-demand solution for industries ranging from ...

Under the brandname StirLIN, Stirling Cryogenics offers a range of liquid nitrogen producing plants with different capacities but all based on the same principle and with the same features.

The LN2G Power Generation Plant incorporates a variety of trusted commercial components working together as an assembly utilizing proven methodologies and the characteristics of LN2 in a more efficient manner to ...

Discover how nitrogen can be produced sustainably using solar energy. Learn about modern techniques, advantages and applications of solar-powered nitrogen generators for various industries.

These compact, oil-free air compressor, PSA nitrogen generator, cryo-cooler, and vacuum dewar tank systems provide automated on-site nitrogen production and storage. Controlled by PLC, they generate liquid nitrogen ...

Explore our advanced liquid nitrogen generators engineered for precise, on-demand LN2 production. From small-scale 10 L/day units to 1,200 L/day high-capacity systems, achieve consistent purity, efficiency, and ...

Solar power generation liquid nitrogen preparation equipment

With our Liquid Nitrogen Generators, you can "produce" your own liquid nitrogen (LN2) instead of purchasing, which offers great convenience, stable LN2 supply, and many other advantages.

Noblegen liquid nitrogen generators create high-purity liquid nitrogen from ambient air using a fully automated, multi-stage process. This allows laboratories, medical facilities, and industrial operations to generate LN₂ on ...
