Balglobal partners with Mytilneos on a pioneering 5MW solar plant in Madagascar. The project will power mining operations, cut 8,000 tonnes of CO2, and boost clean energy.

Aptech Africa, is working to change that story by installing two solar-hybrid mini-grids in the rural municipalities of Androka (in southern Madagascar) and Manatenina (in the southeast).

Madagascar is one of the sunniest countries in the world with more than 3,000 hours of sunshine per year. Commissioned in 2018, Ambatolampy was the first large-scale solar power plant ...

In a context of energy transition towards renewable energies, this case study situated in Madagascar allows us to verify the extent to which an on-grid photovoltaic solar power plant represents a vector ...

Gruner supports solar projects in Madagascar with engineering design, technical advisory, and battery storage solutions for reliable renewable energy.

Construction has started on a 5 MW solar project in Madagascar. The country's Ministry of Energy and Hydrocarbons said in a social media post that the project, to be built in Madiro on the...

Moramanga (GSU) solar farm is a solar photovoltaic (PV) farm in pre-construction in Moramanga, Madagascar.

Bluesun Solar is proud to share highlights from our recent visit to Madagascar, where we reconnected with our long-term partner, CMT Madagascar, to review the progress of our jointly developed solar ...

Madagascar has commissioned its first integrated solar photovoltaic (PV) and storage facility. The project, which will serve the village of Belobaka, in the Bongolava region, about 290km from ...

Malile involves the hybridisation of three large-scale heavy fuel oil plants with solar PV in cities in
