No matter what your application, LongXing has there sources and experience to understand the requirement and to design and build a product to meet the most stringent standards.

The optical storage integrated machine integrates photovoltaic controllers and bidirectional converters to achieve an integrated solution of "light+energy storage".

The Huijue Group's Optical-storage-charging application scenario is a typical application of microgrid energy storage. The core consists of three parts - photovoltaic power generation, energy ...

Designed for the telecommunication industry, our outdoor cabinet and enclosures can be deployed in harsh outdoor environments both rural or residential.

Can be customized waterproof, dustproof and constant temperature cabinet for special industries, R& D, production.

Outdoor Cabinets Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Originally designed for, and in conjunction with, the military, the UWR provides secure storage and durable construction to take the abuse of deployment and in theater use.

Energy storage outdoor integrated cabinet is a distributed energy storage system suitable for industrial and

Southwest Optical Storage Charging User Outdoor Communication Cabinet IP54

commercial scenarios. It can convert renewable energy such as solar energy and wind energy ...
