What is a balcony solar power plant?

Balcony solar power plant is a miniature photovoltaic module to generate electricity for your home. Equipped with an AC plug and an integrated inverter. Just plug it into your outlet and it will generate its own electricity and connect to your home's power grid.

How can I use my balcony to generate energy?

Use your balcony space efficiently to produce clean energy for your home. Ensure a continuous solar power supply via your garage or garden. Ideal for charging your electric car and other electrical appliances. This app helps monitor and manage the energy distribution of your solar installation, maximizing efficiency and optimizing battery charging.
