How much do solar roof tiles cost UK?

SP's cost less than SRT's but aren't as aesthetically pleasing. (Average solar panel roof tiles UK cost: £10,000 for 3kW vs. £5,000 for 3kW solar panels) Are solar roof tiles available in the UK?

How much does solar roof tile cost in 2025?

Solar roof tile costs in 2025 vary significantly by manufacturer and system complexity: For a typical 2,000 square foot roof with 60% solar coverage (1,200 square feet of active tiles), total system costs range from \$14,400 to \$36,000 before incentives. Understanding the components of solar roof tile costs helps in budgeting and comparison:

How much does a solar tile cost?

For example, a standard 4 kW solar tile solar system will cost between £10,000 and £18,000. Compare this to the average solar panel system of the same size which costs an average of £7,000 - almost 50% cheaper. Why are solar tiles much more expensive than panels?

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Interested in solar tiles? Our comprehensive buying guide covers everything you need to know, from installation to maintenance and cost savings.
