---

Liquid-cooled battery clusters (1331.2V, 314Ah, 418kWh each) for optimal thermal management. Integrated EMS for real-time monitoring, multi-parallel scalability, and diesel generator compatibility. ...

Integrated BMS/EMS suitable for various applications Simple, user friendly operation and cloud control Expandable as required Efficient PV integration, supporting DC coupling or AC coupling Support ...

The factory currently has 3 fully automated production lines, each panel passes five quality tests, checks layer by layer, and hand over to the customer's hands.

The cabinet has a modular design with storage from 5 to 20 kilowatt hours allowing backup power to your entire home. Nominal power ranges from 5 to 15 kilowatts, 1 phase or 3 phase, compatible with ...

The business covers the R& D, production and sales of PV modules, residential, commercial and large scale solar plants. We supply turn-key service for domestic customers and all the materials for ...

Specializing in research and development of solar panel, lithium battery and BMS. Bluesun product has exported to more than 185 countries and regions since 2022.

We have a professional QC team to strictly control the quality. Each product is tested before leaving the factory, and only when the quality meets the requirements, it is packaged and shipped.

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

All energy storage components use first-line suppliers, such as Ningde Times, Schneider Phoenix, Kehua, Delta and other strict supplier selection, with the highest quality to provide customers with the ...
