Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

One container has the capacity of 1MWh. Our BESS units are designed for sustained operational longevity, providing consistent charge and discharge cycles with minimal performance attrition, ...

The 1MWh Energy Storage System consists of a Battery Pack, a Battery Management System (BMS), and an AC Power Conversion System (PCS). We can tailor-make a peak shaving system in any ...

Flexible scalability: Connect up to 2 cabinets per inverter and expand sites to 1MWh+. Peak performance: Up to 97.5% inverter efficiency and 0.5C charge/discharge rate for fast cycling.

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy (wind and solar).

The energy system and information system can communicate with each other to realize the functions of real-time data monitoring, AI data analysis and cloud storage.

Featuring a split PCS and battery cabinet design, it offers 1+N scalability and integrates seamlessly with solar PV, diesel generators, the grid, and utility power.

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

Learn how long a 1MWh battery can power factories, warehouses, telecom and solar systems. Practical runtime guide for commercial & industrial energy storage projects.
