What is the VAT rate on solar panels?

The VAT rate on solar panel installations is currently set at 0%, while the standard VAT rate for most goods and services is 20%. This reduced rate applies to both residential and commercial properties, provided that the solar panels meet certain criteria. What are the criteria for the reduced VAT rate on Solar Panel Installations?

Is there VAT on solar panels in the UK?

There's no VAT on solar panels or storage batteries across the UK for all households and charitable bodies. This 0% rate will last until at least 31 March 2027, when it's set to rise to 5%.

Do solar panels come with 0% VAT?

You can only get this 0% rate if you purchase your equipment from the same company that you use to install it. So if you buy solar panels from one company, then hire a different firm to install them, the installation will come with 0% VAT - but the original purchase won't. And the 0% VAT rate doesn't just apply to solar panels and batteries.

Does China have a VAT rebate on solar products?

Effective April 1, 2026, China will completely eliminate VAT export rebates for 249 products. This includes solar cells, modules, inverters, and related components. Previously, many Chinese solar manufacturers received 13% VAT rebates on exports--reduced to 9% in December 2024 for affected product categories.

China eliminates solar export tax rebates effective April 1, 2026. Module prices forecast to rise 10-15%. Get the complete analysis and pricing outlook.
