The WSB-48FI unit is a wall-mountable splice box for fiber optic cable (i.e. outside plant cable and inbuilding cable (Optistrip(TM))). The unit will accommodate four 12-inch splice organizer trays (Corning ...

The wall-mountable housing is designed to store the optical fibers being spliced within the tray and can accommodate either 16 0.2-in (Type 2S or 2R) or 11 0.4-in (Type 4S or 4R) splice trays.

Multilink wall mount fiber distribution boxes include solutions for patch cable interconnection or a combination of splicing and patching. We separate these products into multiple groups based on ...

Durable fiber optic wall-mount enclosures for splice and termination, designed for secure cable management and reliable indoor network protection.

This enclosure features splice trays that can accommodate individual or ribbon fiber and comes in two different sizes to splice up to 3,456 fibers or 6,912 fibers.

No other fiber optic box blends this well into a wiring closet and provides this level of security in a wall mount fiber enclosure. Fiber enclosure wall mount solutions need to be flexible and allow for all types ...
