Our C& I Battery Energy Storage System (BESS) is a high-capacity industrial battery storage solution, grid-connected to optimize energy usage and reduce costs.

TLS Containers offers customizable industrial and commercial microgrid tied energy storage containers for various industries, including solar, wind, and microgrid.

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and renewable ...

TOPBAND Outdoor Battery Storage Cabinet delivers 215 kWh of high-density LiFePO₄ energy in an IP54-rated, weatherproof enclosure--ideal for microgrids, C& I peak shaving, EV charging hubs and reliable backup power.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are pre-assembled ...

Compatible with solar PV, diesel generators, and grid power, it provides stable energy for microgrids, remote areas, manufacturing facilities, farms, and EV charging stations.

Generac's SBE Commercial Battery Energy Storage Systems With energy ratings from 200 kWh to multiple MWh, our battery storage options are sure to fit your microgrid system needs.

Till now, there are more than 100 microgrid projects in operation all over the world are benefit from our solution. We provide pre-engineered container systems for different microgrids.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage

Waterproof Energy Storage Battery Cabinet for Microgrids

solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal for grid-tied, off ...

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.
