Solar Panels or Photovoltaic Systems are solar cells that capture light energy from the sun and convert it directly into electricity. Use this buying guidance to learn more about your options, ask the right ...

Only certain solar equipment and related expenses are eligible for the 30% tax credit, so make sure to double-check what specific items fall under the ITC before you have anything installed.

There's no maximum dollar limit - whether your system costs \$10,000 or \$100,000, 30% of those costs are eligible. This includes equipment (panels, inverters, mounting hardware, batteries), ...

On This PageHow It WorksWho QualifiesQualified ExpensesQualified Clean Energy PropertyHow to Claim The CreditRelated ResourcesYou may claim the residential clean energy credit for improvements to your main home, whether you own or rent it. Your main home is generally where you live most of the time. The credit applies to new or existing homes located in the United States. You can't claim the credit if you're a landlord or other property owner who doesn't live in the home....See more on [irs.gov](https://www.irs.gov).
