GCL is a Tier 1 component manufacturer, provides customers with high-quality clean energy one-stop services

In the photovoltaic (PV) industry, barcode verification is your roadmap to quality assurance. With global solar capacity expected to reach 2.3 TW by 2025 (SolarPower Europe), proper component tracking ...

GCL Delivers Reliable Performance Over Time World-class manufacturer of crystalline silicon photovoltaic modules Fully automatic facility and world-class technology Long term reliability tests ...

Photovoltaic (PV) technologies - more commonly known as solar panels - generate power using devices that absorb energy from sunlight and convert it into electrical energy through ...

As the photovoltaic (PV) industry continues to evolve, advancements in How to read the barcode of photovoltaic panels have become critical to optimizing the utilization of renewable energy ...

To calculate the KWp (kilowatt-peak) of a solar panel system, you need to determine the total solar panel area and the solar panel yield, expressed as a percentage. ...

There are two main ways of gathering serial numbers: manual scanning and drone-based scanning. The most common way to gather serial numbers is by manually scanning the ...

See the table below for available information we have about GCL System Integration Technology Co. Ltd. solar panels. We do our best to provide information such as the panel dimensions, datasheet, ...

To query the authenticity of LONGi PV module, please enter the product barcode, which is a string of numbers on the front or back of the module.
